## SAFETY DATA SHEET

### Section 1

# Chemical Product and Company Information

Innovating Science<sup>®</sup> by Aldon Corporation

"cutting edge science for the classroom"

CHEMTREC 24 Hour Emergency Phone Number (800) 424-9300 For laboratory use only. Not for drug, food or household use.

P501: Dispose of contents/container to a licensed chemical disposal agency in

accordance with all local, state and federal regulations.

#### METHYL ALCOHOL Product Synonyms Methanol; Wood Alcohol; Chromatography Solvent Section 2 **Hazards Identification** Signal word: DANGER **Precautionary statement:** Pictograms: GHS02 / GHS06 / GHS08 P210: Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Target organs: Central nervous system, Liver, Kidneys, Heart P241: Use explosion-proof electrical/ventilating/lighting equipment. P242: Use only non-sparking tools. P243: Take precautionary measures against static discharge. P260: Do not breathe mist/vapours/spray. P264: Wash hands thoroughly after handling. P270: Do not eat, drink or smoke when using this product. **GHS Classification:** P271: Use only outdoors or in a well-ventilated area. Flammable liquid (Category 2) P280: Wear protective gloves/protective clothing/eye protection/face protection. Acute toxicity, oral (Category 3) P301+P330 +P310: IF SWALLOWED: Rinse mouth. Immediately call a POISON Acute toxicity, dermal (Category 3) CENTER or doctor/physician Acute toxicity, inhalation (Category 3) P303+P361+P353: IF ON SKIN (or hair): Take off immediately all contaminated STOT-SE (Category 1) clothing. Rinse skin with water/shower. P304+P340: IF INHALED: Remove victim to fresh air and keep at rest in a position GHS Label information: Hazard statement: comfortable for breathing. H225: Highly flammable liquid and vapour. P308+P312: IF exposed or concerned: Call a POISON CENTER or doctor/physician H301: Toxic if swallowed if you feel unwell H311. Toxic in contact with skin P370+P378: In case of fire: Use dry chemical, alcohol foam, carbon dioxide or water H331: Toxic if inhaled. spray to extinguish. H370: Causes damage to organs. P403+P233+P235: Store in a well-ventilated place. Keep container tightly closed. Keep cool. P405: Store locked up

221 Rochester Street

Avon, NY 14414-9409 (585) 226-6177

Ca Prop 65: This product contains a chemical known to the State of California to cause reproductive toxicity (Methanol, developmental).

Section 3	Composition / Information on	Ingredients			
Chemical Name		CAS #	%	EINECS	
Methanol		67-56-1	100%	200-659-6	
Section 4	First Aid Measures				

**INGESTION:** MAY BE FATAL OR CAUSE BLINDNESS IF SWALLOWED. Call physician or Poison Control Center immediately. Induce vomiting only if advised by appropriate medical personnel. Never give anything by mouth to an unconscious person.

INHALATION: VAPOR HARMFUL. HARMFUL IF INHALED. Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention.

EYE CONTACT: CAUSES EYE IRRITATION. Check for and remove contact lenses. Flush thoroughly with water for at least 15 minutes, lifting upper and lower eyelids occasionally. Get immediate medical attention.

SKIN ABSORPTION: HARMFUL IN CONTACT WITH SKIN. Remove contaminated clothing. Flush thoroughly with mild soap and water. If irritation occurs, get medical attention.

### Section 5 Fire Fighting Measures

Suitable Extinguishing Media: Carbon dioxide, dry chemical, dry sand, alcohol foam.

Protective Actions for Fire-fighters: In fire conditions, wear a NIOSH/MSHA-approved self-contained breathing apparatus and full protective gear. Use water spray to keep fire-exposed containers cool.

**Specific Hazards:** During a fire, irritating and highly toxic gases may be generated by thermal decomposition or combustion. Fires involving a small amount of combustibles may be smothered by dry chemical. Vapors formed from this product are heavier than air and may travel along the ground to a distant source of ignition and flash back instanty. Closed containers exposed to heat may explode. Burns with a clear, almost invisible flame. Contact with strong oxidizers may cause fire.

## Section 6 Accidental Release Measures

Personal Precautions: Evacuate personnel to safe area. Use proper personal protective equipment as indicated in Section 8. Provide adequate ventilation.

Environmental Precautions: Avoid runoff into storm sewers and ditches which lead to waterways.

Containment and Cleanup: Remove all sources of ignition. Absorb with inert dry material, sweep or vacuum up and place in a suitable container for proper disposal. Wash spill area with soap and water.

#### Section 7 Handling & Storage

Precautions for Safe Handling: Read label on container before using. Do not wear contact lenses when working with chemicals. Keep out of reach of children. Avoid contact with eyes, skin and clothing. Do not inhale vapors, spray or mist. Use with adequate ventilation. Avoid ingestion. Wash thoroughly after handling. Remove and wash clothing before reuse.

Conditions for Safe Storage: Store in a cool, dry, well-ventilated area away from incompatible substances. Keep away from ignition sources.

Section 8	Exposure Controls / Personal Pr	otection		
Exposure Limits:	Chemical Name	ACGIH (TLV)	OSHA (PEL)	NIOSH (REL)
Exposure Limits.	Methanol	TWA: 262 mg/m <sup>3</sup> / STEL: 328 mg/m <sup>3</sup>	TWA: 260 mg/m <sup>3</sup>	TWA: 260 mg/m <sup>3</sup> / STEL: 325 mg/m <sup>3</sup>

Engineering controls: Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower and fire extinguishing material. Personnel should wear safety glasses, goggles, or faceshield, lab coat or apron, appropriate protective gloves. Use adequate ventilation to keep airborne concentrations low.

Respiratory protection: None should be needed in normal laboratory handling at room temperatures. If misty conditions prevail, work in fume hood or wear a NIOSH/MSHAapproved respirator.
