* For substances designated as a 'Skin' hazard, protective measures are recommended to prevent or reduce skin absorption. These measures may include the use of gloves, aprons, goggles or other equipment, as well as engineering controls or work practices.

SPILL RESPONSE:

Observe precautions from other sections. Ventilate area. Extinguish all ignition sources. Contain spill. Cover up with absorbent material. Collect spilled material. Clean up residue. Place in U.S DOT approved container and seal. Since regulation vary, consult applicable regulations or authorities before disposal.

SARA Hazard Class: Fire Hazard = yes, Pressure= no, Reactivity= no, Acute= yes, Chronic= yes.

SECTION 7: HANDLING AND STORAGE

Keep container tightly closed. Flammable liquid and vapor. Keep away from heat, sparks, open flame, and other sources of ignition. Prevent all sources of ignition.

Store away from acids. Store away from heat. Keep container dry.

SECTION 8: EXPOSURE CONTROLS / PERSONAL PROTECTION

Avoid eye contact. Wear unvented goggles during operation in which exposure is likely.

Avoid skin contact. Wear appropriate gloves when handling this material. Use one or more of the following personal protection items as necessary to prevent skin contact: aprons, coveralls.

Use with appropriate local exhaust ventilation. Provide sufficient ventilation to maintain emissions below recommended exposure limits. If exhaust ventilation is not adequate, use appropriate respiratory protection.

Avoid breathing of vapors. Select one of the following NIOSH approved respirators based on airborne concentration of contaminants and in accordance with OSHA regulations: half-mask organic vapor and acid gas respirator, full-face organic vapor and acid gas respirator.

Do not eat, drink, or smoke when using this product. Wash exposed areas thoroughly with soap and water.
